Disclaimer: This sample academic plan is one example of how to complete your degree in four years. It may NOT be submitted as your academic plan: you must complete a plan than reflects your desired academic experience. You do not have to take these courses in the order illustrated (though, keep in mind prerequisites for your major and elective courses). This is simply a suggestion and does NOT replace actual advising.

This form is designed to facilitate communication between student and advisor about a course of study that, when completed successfully by the student, will lead to timely graduation. It is the responsibility of the student to select courses that will fulfill requirements of the degree program. Student's signature indicates student's intent to register for the courses listed on this form. Student is responsible for completing and signing form and obtaining advisor's signature. Advisor's signature indicates approval of student;s proposed course of study. Any changes to this plan require advisor's review, approval, and signature.
