Christopher Leh Dorney – *Are Houston's Land Use Relationships Unique?*

Committee Chair: Gerrit J Knaap

The city of Houston, Texas has been at the heart of a long-running debate in the United States on government's proper role in the land development process. As the only large American city that never adopted a city-wide zoning ordinance, Houston is often cited as an example for why more or less government planning is needed. Some authors claim that Houston is an outlier when it comes to land use relationships, with strange land use juxtapositions quite prevalent. Other authors argue that zoning is largely redundant to market forces and that Houston's land use relationships are not all that different from zoned cities. The purpose of this study is to inform this ongoing debate by undertaking a quantitative analysis of land use relationships across large American cities to determine if Houston's are distinctive. The study develops several metrics to quantify land use relationships and uses principal component analysis to determine if Houston is an outlier. The findings indicate that Houston's land use relationships are not substantially different from those of zoned cities.

Nicholas Finio – *The Endurance of Gentrification: Three Essays on Meaning, Measurement, and Consequences*

Committee Chair: Gerrit J Knaap

Gentrification is the process through which an influx of new investment and new residents with higher incomes and educational attainment flow into a neighborhood over time. This dissertation expands scholarly understanding of gentrification's meaning, measurement, and consequences through three essays. The first essay reviews, inventories, and critiques the numerous methods scholars have used to identify gentrification. The second essay critiques the normative foundations of the smart growth movement and improves empirical understanding of how that urban policy agenda and gentrification are linked. The final essay identifies gentrification in Maryland's Purple Line Corridor and with quantitative methods illustrates how gentrification impacts the local business economy. The findings of this dissertation show that gentrification is often not properly identified, smart growth and gentrification can be linked, and that businesses in gentrifying neighborhoods are more likely to close.

Larry Reich Award: Larry Reich was Baltimore City Department of Planning Director from 1965 to 1990 and was a central figure in the City's Downtown Renaissance, a proponent of community-based planning and neighborhood initiatives, and an opponent of proposed highways that would have obliterated some of Baltimore's most historic neighborhoods. The Larry Reich Award is given annually to a M.C.P. student who has shown initiative and leadership in an area of urban revitalization or economic development.

Philip Isaiah

Robert Janes Award: Robert Janes was a University of Maryland Sociology professor who created the University's Urban Studies program. Responding to the urban unrest of the 1960s, he established a broad multi-disciplinary program aimed at preparing practitioners who could improve city conditions. The Robert Janes award is given to an URSP graduating student for contributions to the mission of the Urban Studies and Planning Program.

Max Van Allen

AICP Award: The American Institute of Certified Planners Award is for achieving the highest point average while completing the Master of Community Planning degree from the Urban Studies and Planning Program. The award acknowledges the student's commitment to scholarship and academic excellence.

Jeffrey Del Monico

Carter Reitman

Melvin Levin Outstanding MCP Student Award: Dr. Levin was chairman of the Urban Studies and Planning Program from 1978 to 1989. This award recognizes the student's high level of scholarship, as well as the student's commitment to enhancing the quality of the Program. The student epitomizes the planning student we seek to recruit and ultimately graduate into the professional planning field.

Pierre Guarnard

Samuel J. Lefrak Award: Samuel J. Lefrak was one of the foremost leaders in the housing industry of the 20th century. He is credited with making several important contributions to urban revitalization in New York City. This award is presented to a MCP student in recognition of the student's scholarship and commitment to the vision and goals of the planning profession.

Sophie Kotzer

Additional Architecture and Real Estate Development awards are listed in the page insert.

James Cohen Award: This is awarded annually to a graduate student who elevates conversations of justice, equity, diversity, and inclusion through engaged planning research. The award honors Dr. Jim Cohen, a former director of the Urban Studies and Planning Program, who retired in 2017. Throughout his 27-year career at the University of Maryland, Dr. Cohen was integral in shaping both the URSP Program and the National Center for Smart Growth. He was a favorite among students and colleagues, generous with both his time and expertise.

Samuel Cole McCormally

URSP Outstanding Graduate Assistant Award: This award is presented to a graduating student in the Urban Studies and Planning Program whose work as a Graduate Research Assistant and/or Teaching Assistant has been outstanding.

Timothy Von Stetton

APA Outstanding Student Award: The APA gives this award to one student from each PAB-accredited institution nominated by the department head/faculty with a letter. **CRITERIA:** The department head and colleagues of each Planning Accreditation Board-accredited planning program determines its own criteria. These criteria may include, but need not be limited to, academic achievement, leadership, commitment to planning as a career, and community service.

Carter Reitman

Theresa Fiscus Moriarty Award: Theresa Fiscus Moriarty received her Master of Community Planning in December 1994, and her bright promise was cut short by illness.

Hillary Gossett

Historic Preservation Awards

Prince George's Heritage Fellowship Award, established in May 1991 by Margaret Cook, is an annual competitive award for a historic preservation student who undertakes a study related to Prince George's County.

Justin Mohammadi

St. Clair Wright Scholarship is presented annually to a student who has involved her/himself in local preservation efforts since matriculation at the University of Maryland.

Devon Hailey Murtha, MHP

Jon C. Graff, Ph.D. Endowed Prize in Historic Preservation, established in 2018, is an award given annually to an outstanding student (or two) that includes a travel award accompanied by a medallion. Dr. Graff was an alumnus of the University of Maryland who had a successful career in biochemistry and later cyber security. As a lifelong learner, he studied paleontology and supported historic preservation in his retirement. He was an avid bicyclist and the accompanying medal reflects his passion.

Karen Chun-Lan Yee, CPHP

The Director's Award recognizes an outstanding graduating preservation student, both for their overall achievement and for producing a final project that successfully applies inter- and multi-disciplinary research methodologies in the field of historic preservation.

Margalit Pelta-Pauls, MHP

Faculty and Staff Awards

Real Estate Development Awards

MRED Outstanding Capstone Project Prize is awarded for the best final project as determined by a jury of real estate professionals.

Golden Terps - 1972

This spring, the School of Architecture, Planning and Preservation celebrates the 50th anniversary of the school's first graduating class. In 1972, 17 students graduated from Maryland's architecture program, laying the foundation for what we have built today. We welcome those joining us from the class of 1972, our inaugural class of Golden Terps, and thank you for leading us forward!

Julia Nagele, (M.ARCH '96)
Senior Principal, Director of Design - Architecture
HEWITT

Julia Nagele, brings more than 20 years of experience to her role as the leader of architectural design at HEWITT. She believes the success of today's projects rely on the expertise of many, and is dedicated to creating an inclusive environment that promotes participation from a broad range of diverse thinkers. Julia helps enforce these values at HEWITT, as the team strives to address complex urban conditions in a straightforward and elegant manner. Her experience as an Assistant Affiliate Professor at the University of Washington reinforces her professional practice by guiding team projects as an editor and forming strategies for successful outcomes. Known for her work designing skyscrapers, Julia's recently completed Emerald Tower was called "city's most highly-anticipated luxury condominium" by Dwell magazine. Her Mama Tower, currently moving through the design review process, will reach 484 feet, while her 32-story Skyglass broke ground last year. Nagele graduated Cum Laude with a Bachelor of Architecture degree from Lehigh University. She completed her Master of Architecture degree from the University of Maryland in 1996, and was awarded the Dean's Thesis Prize.
