

WE'RE HIRING!

Learn real world skills while working in a fun and creative environment. We are seeking a student / intern to assist with building physical models, rendering / visualization, and assisting project architects and other design staff on documentation and product research. The ideal candidate will be driven and self-motivated. Schedule is flexible.

- > Physical model making skills is a requirement (please include examples of models)
- > Familiarity with makerbot / 3d printing / laser cutting techniques is a plus
- > Familiarity with **AutoCAD / Revit / Sketchup / Adobe Creative Suite**
- > Familiarity with rendering software (lumion) is a plus

Please email single PDF containing resume, portfolio examples and samples of models, renderings, and drawings to collaborate@teass-warren.com. Please do not call the office.

Teass \ Warren Architects, a growing DC based architectural design studio, is seeking to expand our team. Our office is in the H Street Corridor of Northeast DC with access to Metro's Red Line. The office environment is open and collaborative where ideas and techniques are continually discussed. Communication and organization skill sets are critical.
